

I have been licensed as an amateur operator for about 12 years. I am 53 years old and have quite a bit of money invested in equipment. I have volunteered my services many times in the past and will continue to do so in the future. I love amateur radio and at the age of 53 it is really the only hobby I have now. If something happened to keep me from being able to participate into the future I would have nothing to occupy my free time as I use the hf spectrum much of the time. BPL seems to do just that and will undoubtedly harm any amateurs ability to use their hf equipment. Please consider the people in this service and don't do something that will potnetially mark the end of Amateur radio as we know it today. Thank you very much.

Respectfully Yours,
Greg Taylor N9OUK
